

# Connect Bose QC Ultra Earbuds for Windows 11

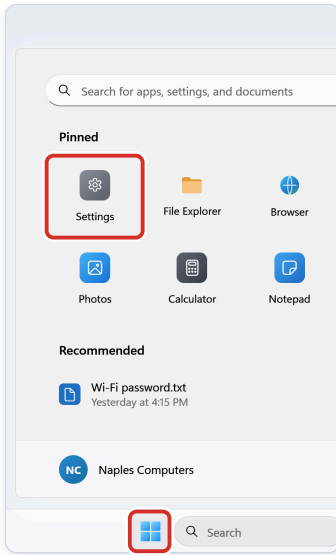

Follow these simple steps to pair your Bose QuietComfort Ultra Earbuds with a Windows 11 PC.

*We Make  
I.T.  
Happen!*

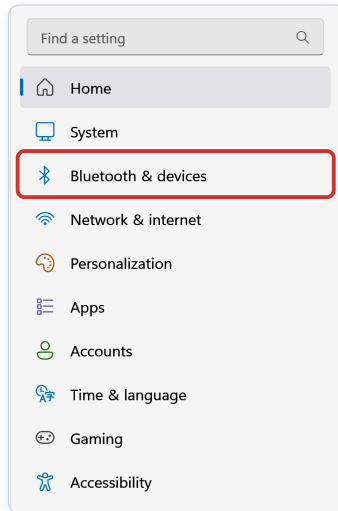

## 1 Open Settings

Click the **Start** button, then select **Settings**.

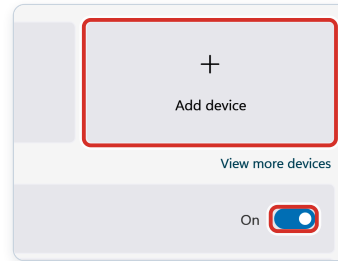

## 2 Go to Bluetooth & devices

In Settings, click **Bluetooth & devices** on the left.

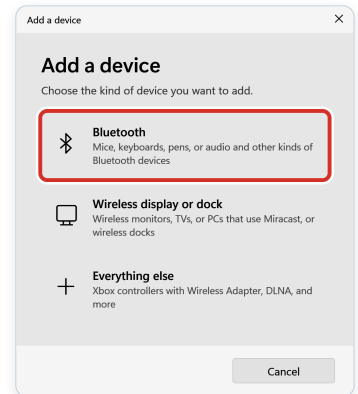

## 3 Turn on Bluetooth

Make sure **Bluetooth** is **On**, then click **Add device**.

## 4 Select Bluetooth

In the **Add a device** window, click **Bluetooth**.

## 5 Put Earbuds in Pairing Mode

Earbuds in the case, lid open. **Press & hold the button on the back of the case for about 3 seconds.**

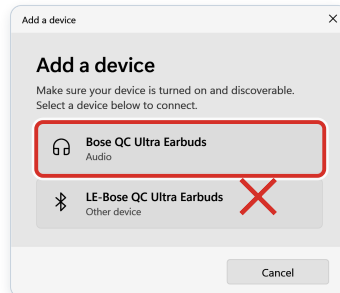

**Hold ~3 sec**

**Blinks blue = ready**

## 6 Look for the Bose Earbuds

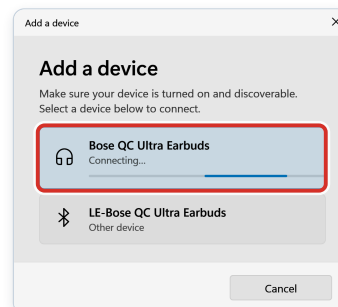

Wait for **Bose QC Ultra Earbuds** (headphones icon) to appear in the list.

**Do NOT pick "LE-Bose QC Ultra Earbuds".**  
Choose the one with the headphones icon.

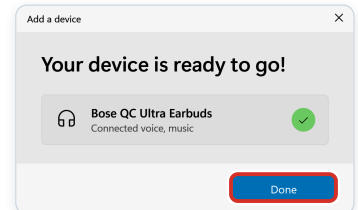

## 7 Select and Connect

Click **Bose QC Ultra Earbuds**.  
Windows connects them automatically.

## 8 You're Connected!

When Windows says **Your device is ready to go!**, click **Done**.

## Good to Know

- Your Bose earbuds **reconnect automatically** to this PC when Bluetooth is on and they're nearby.
- If Windows lists them twice, **don't select the "LE-" entry**. Choose the one with the headphones icon.
- Don't see them? Close the case, wait a few seconds, open it and hold the button until the light **blinks blue**.
