AI Voice-Clone and Grandparent Scams

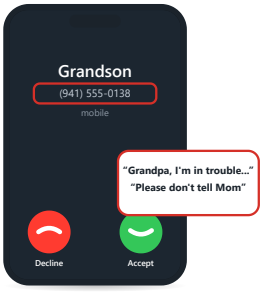

It can sound exactly like them. One code word stops it cold.

We Make I.T. Happen!™

1 A Sudden "Emergency"

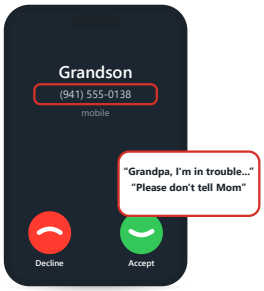

Arrested, in an accident, or stranded, and needs money **right now**.

Example only. Name, number and quotes are made up.

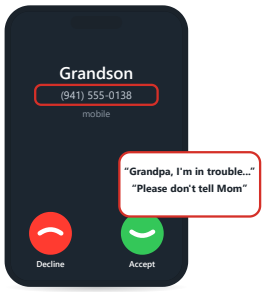

2 A Voice That Sounds Real

AI can clone a voice from just **seconds of audio**, like a video online.

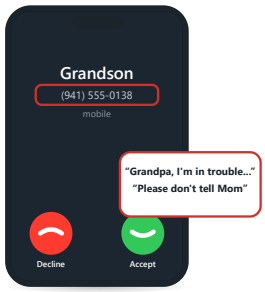

3 "Don't Tell Anyone"

They ask for secrecy, so you never **check with family**.

4 Watch How They Want Payment

Gift cards, crypto, a wire, or a **"courier"** at your door.

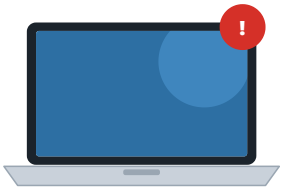

5 Set a Family Code Word

Agree on one now, **before you need it**. Never post it online.

6 No Code Word, No Money

A scammer, even with a **cloned voice**, won't know it.

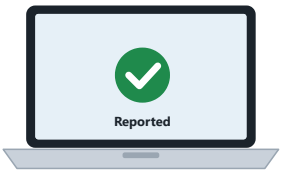

7 Hang Up, Call Them Back

Use a number **you already have**, never one the caller gives you.

8 Report It

ReportFraud.ftc.gov, your local police, and tell your family.

Good to Know

- Sent money by wire or cash app? **Contact the company right away.**
- Paid with a gift card? **Call the issuer immediately** — some can still freeze it.
- Not sure if a call was real? Call **239-513-1960** and we'll help you think it through.
