

Connect Your Phone to Wi-Fi

iPhone and Android, step by step.

*We Make
I.T.
Happen!™*

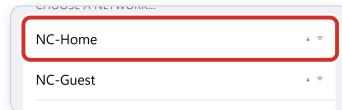

1 iPhone: Open Settings > Wi-Fi

Tap **Settings**, then tap **Wi-Fi**.

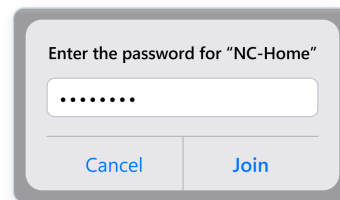

2 iPhone: Tap Your Network

Choose your network from the list, like **NC-Home**.

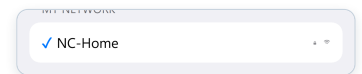

3 iPhone: Enter the Password, Join

Type the password, then tap **Join**.

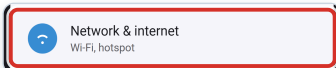

4 iPhone: Look for the Checkmark

A blue checkmark means you're connected.

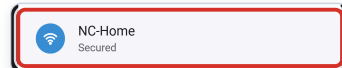

5 Android: Settings > Network & Internet

Tap **Settings**, then **Network & Internet**.

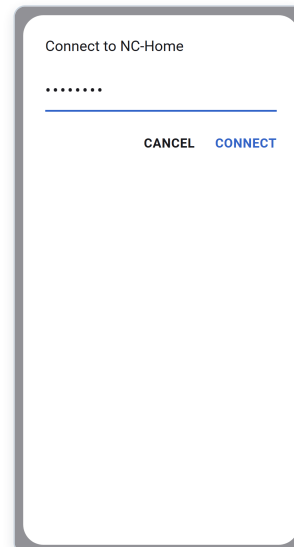

6 Android: Tap Internet, Then Your Network

Tap **Internet**, then choose your network.

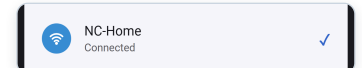

7 Android: Enter the Password, Connect

Type the password, then tap **Connect**.

8 Android: Look for the Checkmark

A blue checkmark means you're connected.

Good to Know

- Don't know the password? Check the label on the router itself, or ask whoever set it up.
- Not seeing your network? Make sure Wi-Fi is turned on and you're close to the router.
- Be careful on public Wi-Fi – avoid online banking or typing passwords on open networks.
