

Free Up Storage Space

iPhone, Android, Windows 11, and Mac, step by step.

*We Make
I.T.
Happen!™*

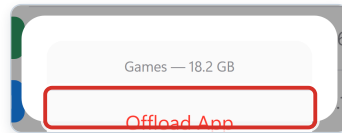

1 iPhone: General > iPhone Storage

Settings → **General** → **iPhone Storage**.

2 iPhone: Offload an App

Tap an app you don't use, then **Offload App**.

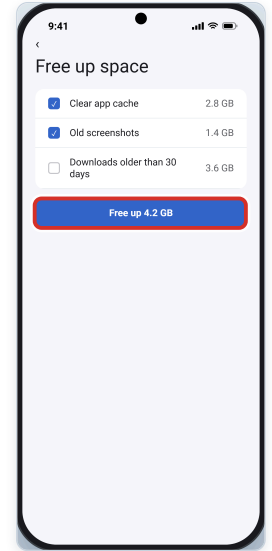

3 Android: Storage > Free Up Space

Settings → **Storage** → **Free up space**.

4 Android: Check, Then Confirm

Check what you don't need, then confirm.

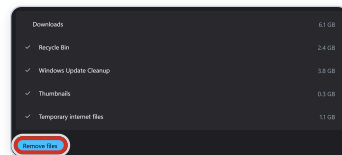

5 Windows 11: System > Storage

Settings → **System** → **Storage**.

6 Windows 11: Temporary Files

Check the boxes, then click **Remove files**.

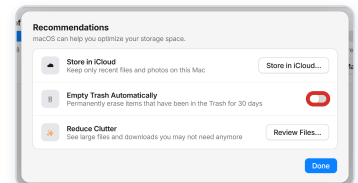

7 Mac: General > Storage

System Settings → **General** → **Storage**.

8 Mac: Manage Recommendations

Click **Manage**, then turn on **Empty Trash Automatically**.

Good to Know

- Check that your photos are backed up before deleting local copies.
- Deleting a file doesn't free space until you empty the Recycle Bin or Trash.
- Big apps you rarely use are usually the fastest win, on a phone or a computer.
