Drag the slider, then click **Apply**.

Text size A | | | | | A 100% Apply

7 Mac: Accessibility > Display

System Settings → **Accessibility** → **Display**.

Display
Text size, contrast, and motion

8 Mac: Drag, Then Apply

Drag the Text size slider, then click **Apply**.

A | | | | | A Apply

Good to Know

- Zoom just one web page: hold Control (Command on a Mac) and press plus — no settings needed.
- Go up one size at a time; very large text can cut off in some apps.
- A few older apps keep their own font size, no matter what you set system-wide.
