

Faster Startup

Turn off startup apps, Windows and Mac.

*We Make
I.T.
Happen!™*

1 Windows: Open Task Manager

Right-click the taskbar, or press **Ctrl+Shift+Esc**.

2 Windows: Click an App

Select the one you want to **stop**.

3 Windows: Click Disable

It stays installed, just **won't auto-launch**.

4 Mac: Open System Settings

Then click **General** in the sidebar.

5 Mac: Click Login Items

Shows apps that **open at login**.

6 Mac: Turn Off the Toggle

It stays installed, just **won't auto-launch**.

7 Leave Security Software Alone

Antivirus should **keep running** at startup.

8 Keep Cloud Sync You Use Daily

OneDrive or Dropbox are **worth keeping**.

Good to Know

- Not sure what an app does? Turn off one at a time, then restart.
- Disabling doesn't uninstall anything, you can always turn it back on.
- Still slow? Call **239-513-1960**.
