

Microsoft 365 From GoDaddy?

Why some businesses move to Microsoft 365 directly, or through a Microsoft Partner.

*We Make
I.T.
Happen!™*

1 GoDaddy Is a Reseller

Many businesses buy Microsoft 365 through GoDaddy, sometimes branded "**Microsoft 365 from GoDaddy.**"

2 Admin Access Is Limited

GoDaddy manages the account, so **some settings are restricted** by default.

3 Why Some Businesses Move

Full admin control, more licensing flexibility, and a Partner who knows your setup.

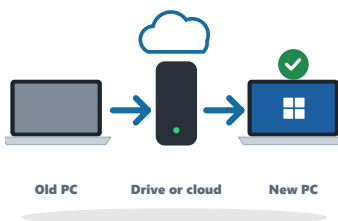

4 What Changes for Staff?

Almost nothing: same email, same Outlook, just sign in again.

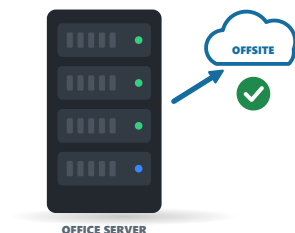

5 New Tenant, Mail Copied Over

Same process as any migration: built first, copied over **while you keep working.**

6 MX Held, Then Cutover

Nothing switches until everything's ready, **then one scheduled moment.**

7 Final Sync

Catches anything sent during the switch, so **nothing gets lost.**
