

New Device? Set It Up Safely

Eight things to do before you start using a new laptop, Mac, phone or tablet.

*We Make
I.T.
Happen!™*

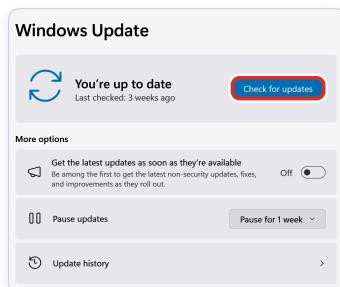

1 Use Your Real Name

Sign in with your real name, and a **Microsoft or Apple account you control**.

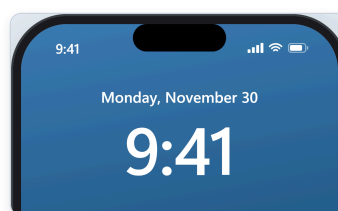

2 Update Everything First

Settings → Windows Update → Check for updates. Repeat until up to date.

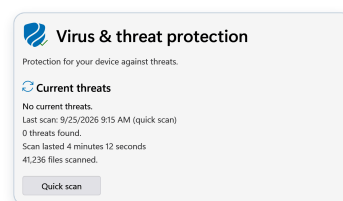

3 Lock the Screen

Set a **PIN, passcode**, or turn on Face ID, Touch ID or a fingerprint.

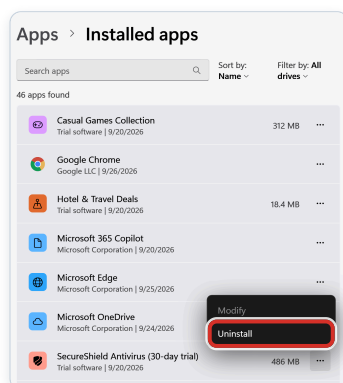

4 Keep Protection On

Windows Security turns itself on. Look for **green checks** and no current threats.

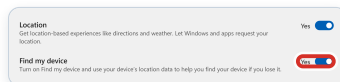

5 Skip the Extras

Settings → Apps → Installed apps. Uninstall trial software you don't need.

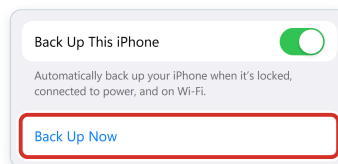

6 Turn On Find My Device

During setup, leave **Find my device** turned on so you can locate it if it's lost.

7 Back Up From Day One

iPhone: **Settings → name → iCloud → iCloud Backup → Back Up Now.**

8 Register & Keep the Receipt

You'll need the receipt and serial number for **warranty and insurance**.

Good to Know

- **Buying from Naples Computers?** Setup and file transfer are included. Bring your own and we'll do it as a paid service.
- **Business devices:** enroll them in management (Intune or Jamf) with a work account, not a personal one.
- Need help? Call **239-513-1960**, or visit naplescomputers.com.
