

Shop Safely Online This Holiday Season

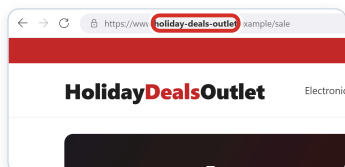

Spot fake stores, pay the safe way, and ignore fake delivery texts.

*We Make
I.T.
Happen!™*

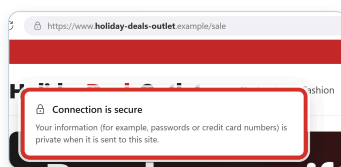

1 Check the Address

Read the address bar. Fake stores use names that look **almost right**. Type the address yourself.

2 The Lock Isn't Enough

The lock means the connection is private, **not that the store is honest**.

3 Too Good to Be True?

Be wary of **social media ads**, huge discounts and countdown timers. Search the name + **"scam"**.

4 Pay the Safe Way

Use a **credit card** or **PayPal**. Never gift cards, wire transfers, Zelle or crypto.

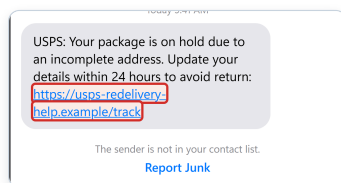

5 Lock Down Accounts

A **strong, unique password** for each store, plus **two-factor** sign-in.

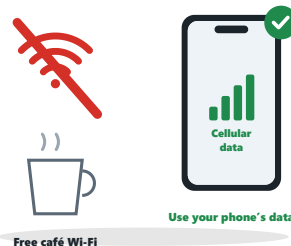

6 Fake Delivery Texts

Don't tap the link. Tap **Report Junk**, or forward it to **7726**.

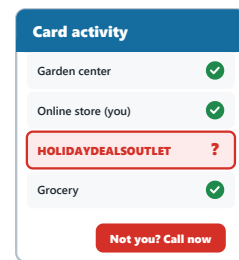

7 Skip Public Wi-Fi

Shop at home, or use your **phone's cellular data**, not café or hotel Wi-Fi.

8 Check Statements

Look at card activity **every week**. Don't recognize a charge? Call your card company.

Good to Know

- Scammed? Call your card company right away, change your passwords, and report it at **ReportFraud.ftc.gov**.
- Real shippers don't text you a link to fix your address or pay a fee. Check in the **shipper's own app**.
- Clicked a link or installed something? Call **Naples Computers at 239-513-1960**.
