

Emergency Alerts & Medical ID

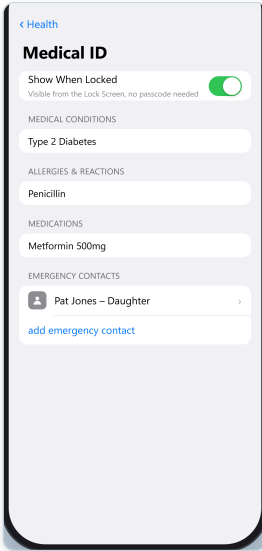

Set it up once, on iPhone and Android.

*We Make
I.T.
Happen!™*

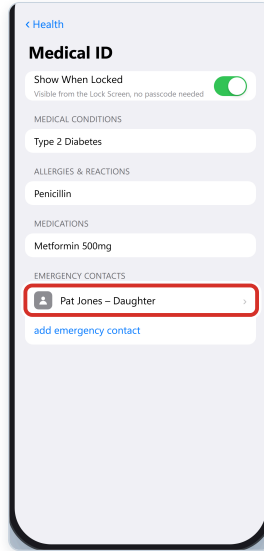

1 iPhone: Open Medical ID

Health app > profile picture > **Medical ID** > Edit.

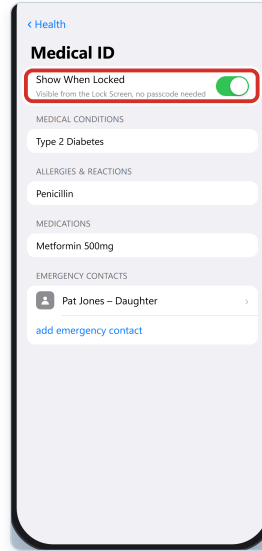

2 iPhone: Add an Emergency Contact

List someone who can **act quickly** for you.

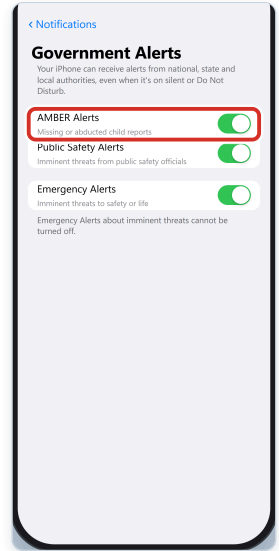

3 iPhone: Turn On Show When Locked

Visible from the Lock Screen, **no passcode needed**.

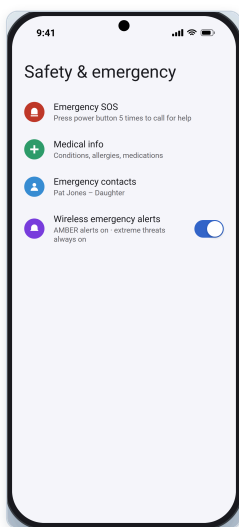

4 iPhone: Check Government Alerts

Settings > Notifications > **Government Alerts**.

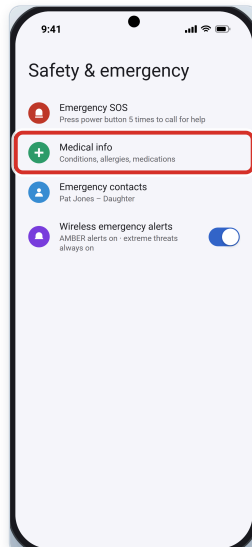

5 Android: Safety & Emergency

Settings > **Safety & emergency**, everything in one place.

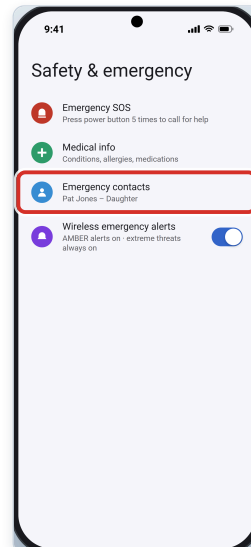

6 Android: Add Medical Info

Conditions, allergies, and **medications**.

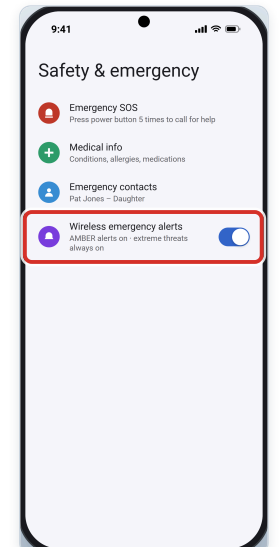

7 Android: Add Emergency Contacts

Someone who can be reached **directly**.

8 Android: Turn On Wireless Alerts

AMBER and extreme-threat alerts, **on by default**.

Good to Know

- Pick a contact who's nearby or can act quickly, not just the closest relative.
- Update it after any new diagnosis, surgery, or medication change.
- Need help setting it up? Call **239-513-1960**.
