

Uninstall Programs You Don't Need

How to spot bloatware, and remove it safely.

*We Make
I.T.
Happen!™*

1 Trial Software and Offers

Games, "cleaner" tools, anything with **"trial"** or **"expires"** in the name.

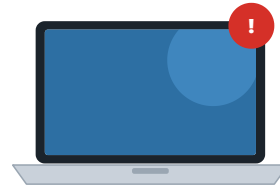

2 Toolbars You Never Asked For

Browser toolbars or extensions that **showed up on their own**.

3 Settings, Apps, Installed Apps

Find the app you want to **remove** in the list.

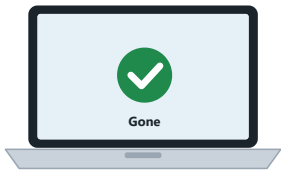

4 Three Dots, Then Uninstall

Click the three dots next to it, and choose **Uninstall**.

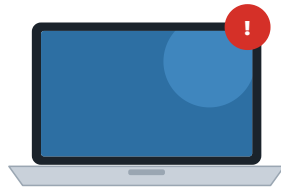

5 Confirm, and It's Gone

One more click, and the **extra app is removed**.

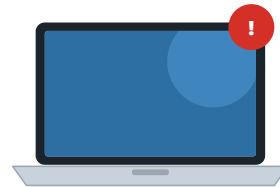

6 Keep Your Actual Antivirus

Even a trial; removing it leaves you **unprotected**.

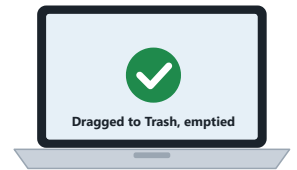

7 Keep Your PC Maker's Utilities

Dell, HP, and Lenovo apps may look unfamiliar but **matter**.

8 On a Mac? Drag It to the Trash

Then **empty the Trash** to finish removing it.

Good to Know

- Not sure what something is? Leave it, or ask us before removing it.
- Some apps are built into Windows, or macOS, and can't be uninstalled this way.
- Want us to clean it up for you? Call **239-513-1960** to schedule it.
