

Update Your Mac Software Update · App Store

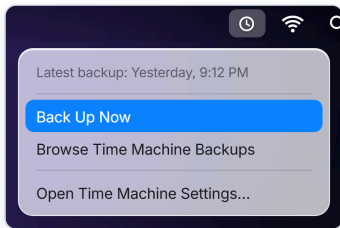

Back up first, install macOS updates, and keep your apps up to date.

*We Make
I.T.
Happen!™*

1 Back Up First

Click the **Time Machine** icon in the menu bar → **Back Up Now**.

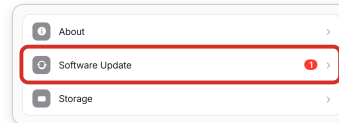

2 Open System Settings

Click the **Apple menu** → **System Settings**.

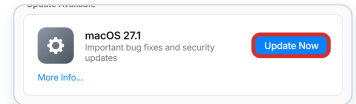

3 Software Update

Click **General**, then **Software Update**.

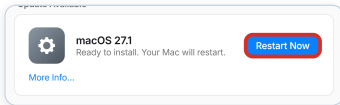

4 Click Update Now

Click **Update Now** and enter your Mac's password. Keep it **plugged in**.

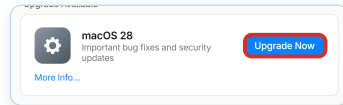

5 Restart Now

When it's ready, click **Restart Now**. Let it finish; it may restart more than once.

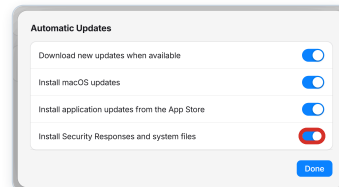

6 Upgrade? Check First

Upgrade Now means a whole new macOS. Back up and check your apps first.

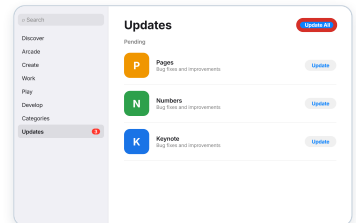

7 Automatic Updates

Click the ⓘ next to Automatic updates. Turn them **on**, then **Done**.

8 Update Your Apps

App Store → **Updates** → **Update All**.

Good to Know

- Real updates come from Apple, **never from a pop-up, email link or phone call**.
- Older Macs eventually stop getting updates. No more security updates? **Talk to us** about options.
- Need help? Call **239-513-1960** or click **Join Remote Session** at [naplescomputers.com](https://www.naplescomputers.com).
