

Windows 10 Is Out of Support: Now What?

What actually changed, and what to do about it.

*We Make
I.T.
Happen!™*

1 No More Security Updates

As of **October 14, 2025**, Windows 10 stopped getting fixes.

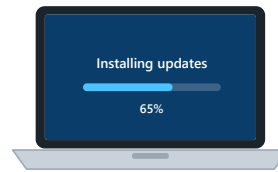

2 Your PC Still Works

It turns on and runs your programs; **nothing breaks overnight.**

3 Option 1: Upgrade for Free

If your PC meets the requirements, **Windows 11 costs nothing.**

4 Option 2: A New Windows 11 PC

Older hardware often can't qualify; a new PC comes **ready to go.**

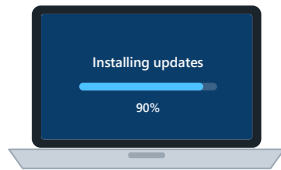

5 Option 3: Enroll in ESU

Keeps security fixes coming **through October 2027.**

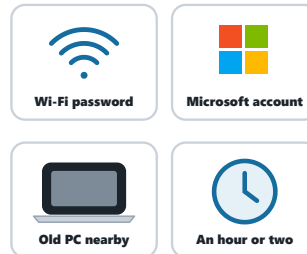

6 Check Version 22H2 First

With the **latest Windows updates** already installed.

7 Enroll: Settings, Windows Update

Select "Enroll now," then **sign in with a Microsoft account.**

8 Three Ways to Enroll

Free by syncing settings, free with Rewards points, or a **one-time \$30.**

Good to Know

- ESU doesn't include feature updates or technical support, just security fixes.
- One ESU license covers up to 10 devices on the same Microsoft account.
- Not sure which option fits? Call **239-513-1960**, we'll help you decide.
