How to Send Photos by Text or Email (iPhone and Android)

This guide shows how to send a photo by text message or email from an iPhone or Android phone, using the Share button in Photos.

One button, either way

- ☐ It all starts with Share
Open the photo in Photos (or Google Photos), then tap the Share icon
- ☐ Pick the app
Messages for a text, Mail or Gmail for an email
- ☐ Same idea on iPhone and Android
The apps look a little different, but the steps match

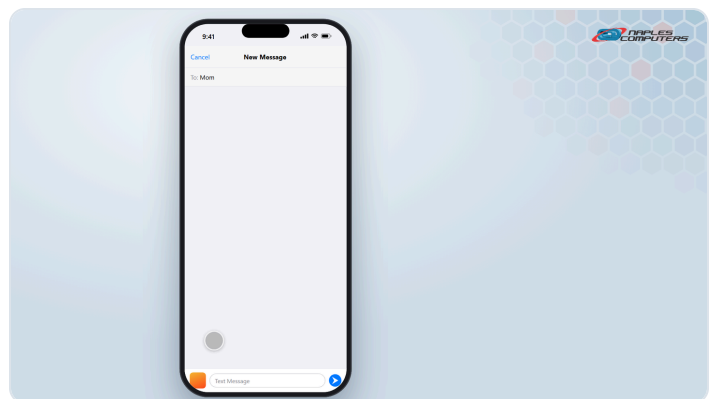

Step by step

IPHONE**1 iPhone: send a photo by text**

Open Photos, pick a photo, then tap Share.

WHAT TO DO

Tap Messages, type who it's going to, and tap Send.

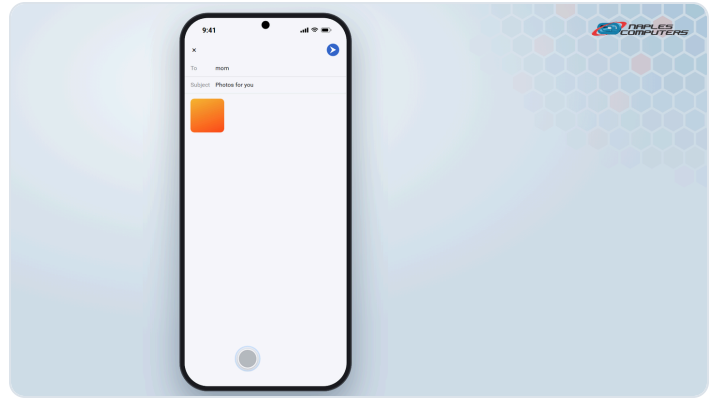

ANDROID

2 Android: send a photo by email

Open Google Photos, pick a photo, then tap Share.

WHAT TO DO

Tap Gmail, type the email address, and tap Send.

A few tips

- ☐ Sending a lot of photos?
Email usually handles more at once, and bigger files, than a text
- ☐ Text messages often shrink photos
To save space; email keeps the full-quality original
- ☐ Sending to a computer?
Email it to yourself, or use a cloud service like iCloud or Google Photos

Recap: send a photo

- ☐ Open the photo, then tap Share
- ☐ Type who it's going to, then tap Send
- ☐ Pick Messages for a text, or Mail/Gmail for an email
- ☐ Email keeps full quality; texts may shrink the photo

Sending several large photos? Email usually handles more at once than a text message, and keeps full quality, since MMS text messages often shrink photos to save space.

Photo won't send?
